A city or village that has restrooms, food and lodging

City/Village Name
A city or village with restrooms and food

County Boundary

Bicycle Safety

Recommended Gear

Fitted and Adjusted Bike
Be sure your bicycle is adjusted to fit you properly. Check tires, chains, brakes, and other moving parts. Your bicycle must be equipped with a brake which will enable you to skid on dry, level, clean pavement.

Clothing
Light and bright colored clothing and safety vests help to make a bicyclist more visible, especially at dusk or at night. Added reflective material on your clothing and bicycle is recommended when night riding is required.

Racks, Packs and Trailers
If you plan on carrying any packages, bundles or any articles you must be able to keep both hands on the handlebars. A variety of racks, packs, and trailers can be fitted on your bicycle to transport goods.

Map Information

Map produced by The Greenway Collaborative, Inc. in collaboration with the Michigan Department of Transportation with funding from the Federal Highway Administration. Map printed and distributed by Tri-County Regional Planning Agency.
